Thanks Ken.

Jeff and Brooks, please see James' contact information below and pass it along to the EPA contractors.

Kris – thanks for the heads-up. I've cc'd Davinder Hothi (SRC owner) and James Getter (SRC Property Manager). James will be your best contact point for EPA contractors and subcontractors to do a site walk. James's cell phone number is (b) (6). James can provide better info on the best access points and parking areas.

Have a great weekend.

Hi Ken,

I just heard from Brooks and Jeff that EPA's contractors are planning a site walk for next week and will be accessing SRC property. They are planning to do this on Monday, June 15. This is not a heavy machinery type of access, rather it is to walk around the property to further develop plans for removal activities in July. We believe this falls squarely within the consent for access form that SRC signed. EPA staff will not be there, only contractors and subcontractors. In the past, EPA accessed the property by going through the driveway at the metal fabrications shop. If SRC would prefer that EPA's contractors take a different route onto the property, please let me know.

Please let me know if you have any questions. Otherwise we will talk on Monday as scheduled.

Take care,

Kris
